

Glenorchy Knights Junior Program 2024

U5 to U12 Boys and Girls

**2024 WSL PROMOTION
20% Discount for all female players**

To better prepare our players for youth competitions as they get older, players in U8 to U12 age groups are required to take part in the Knights Skills Program (KSP)

The aim of the KSP is to provide our junior players with access to more training sessions with qualified coaches.

Up to 3 KSP sessions will be available to players every week, and 1 team training session (so up to 4 sessions in total).

The expectation is for each player to attend at least 2 sessions each week (1 KSP and 1 team training).

Training more than once a week improves players skills and fitness.

Our coaching staff are very keen to help players develop and reach their potential.

The coaching team is led by **James Sherman**, Technical and Academy Director. James has a B-Licence in coaching and is currently working towards an A-Licence. He is also the coach of the Glenorchy Knights Senior Men's NPL team.
