

OUR GUIDING PRINCIPLES

For Junior, Youth & Academy players

Glenorchy Knights Football Club aims to create an environment where people feel included, safe and have fun as well as develop players to reach their maximum potential and build a relationship with the game that brings enjoyment.

These are the principles that guide us:

Respect

This means showing care towards our team mates with how we speak and treat each other. We should always be positive and caring towards others and show the same qualities towards coaches, opposition teams and officials.

Effort

We always try our best and understand that we cannot always be our best version but the effort to try to be is always the goal. Knowing that even when things are tough and not easy, we are there to listen to our coaches and work hard to support our team mates.

Open minded

It's important that we always look for ways to try to improve and be flexible with our mindset and approach towards the game and learning new things.

Fun

This is the most important one. We want to make sure that all players enjoy their football journey and continue to play at whatever level they choose.
